## INSTRUCTIONS

This form should be submitted to a representative of the Administrator under the following circumstances:

1. By the applicant for a type certificate or a supplemental type certificate at the time he presents an aircraft or parts thereof to the FAA for tests.
2. By the applicant for a type certificate or a supplemental type certificate for each engine or propeller submitted for type certification.
3. By the type certificate holder or licensee manufacturing products under a type certificate only, upon the initial transfer by him of the ownership of each product or upon application for the original issue of an aircraft airworthiness certificate, or an Airworthiness Approval Tag (FAA Form 8130-3)

This form should be completed as follows:

**Section I. Aircraft.** Complete the pertinent part of only this section when certification covers an aircraft or part thereof.

**Section II Engine.** Complete this section when certification covers an engine.

**Section III Propeller.** Complete this section when certification covers a propeller.

**Section IV. Certification.**

**Item A.** Check this block when an aircraft or part thereof is presented for flight or ground tests during type certification or supplemental type certification.

**Item B.** Check this block when the holder or licensee of a type certificate only, initially transfers the ownership of an aircraft manufactured under the type certificate, or applies for the original issuance of an airworthiness certificate.

**Item C.** Check this block when an engine or propeller is presented for type certification.

**Item D.** Check this block when an engine or propeller is presented for airworthiness approval and insert the date the product completed a final operational check.

The certification must be signed by an authorized person who holds a responsible position in the manufacturing organization.
